

Aftek SpyGuard - India's first integrated motion sensitive camera cum alarm security system

Pune, Maharashtra: Aftek Limited, a Pune based IT firm has developed SpyGuard, a revolutionary, new, remote monitoring, security system. The highlights of this product are its integrated, motion sensitive camera and automated alarm system. This is the first time that Indian customers will have an option to choose a unique security system that has an automated central monitoring service and video recording for the activities that take place when you are away from home, shop or office. At a highly economic price in the range of Rs 20,000, SpyGuard offers advanced functionalities

that can be controlled from anywhere in the world by sending SMS or by accessing the SpyGuard website or any online messenger (Example, Yahoo).

This highly advanced and sophisticated device is equipped with multiple utility features such as remote control, door sensor, light control, motion sensor, hooter (siren), 24X7 calling facility etc that makes it one better than the best available in the market today. The video clips recorded by SpyGuard can be viewed by just plugging the USB drive to your PC or can also be uploaded online via GSM modem or data card. This gives you the opportunity to view the recorded videos with an Internet connection anytime and from anywhere. When asked why SpyGuard should be your choice amongst the other security systems in the market, Dhananjay Kulkarni, Senior Vice President - Engineering of Aftek Limited said, "Aftek SpyGuard combines the **camera functionality** with **local alarm** and SMS based **remote notification**. This brings best of both the worlds in a compact, economical, and easy to use package. Based on extensive consumer research, Aftek has developed different variants of SpyGuard targeted to specific needs of **shops, homes, banks**, and other segments".
